VOLUME 17, NO. 25

City Park Bonds To Be Sold At Fine Premium

Splendid premiums were offered for the \$30,000 issue of municipal park bonds at last night's meeting of the city trustees. A conditional offer of \$2187 in addition to par and accrued interest was made by the William R. Staats Co. Two straight offers of \$1010 in addition to par and accrued interest, one from the Citizens National Bank of Los Angeles, and the other from Hunter, Dulin & Co.

No award was made by the trustees last night as City Attorney Baker asked a few days time in which to consider legal aspects of the offer. The board adjourned to meet Monday night when final action will be taken.

The offer of the William R. Staats Co., was conditioned on a change in the denomination of the bonds from that specified to bonds of \$250 each. In the letter containing the offer the bidder gave assurance that the change would not affect the validity of the bonds. However, this bid, like all the others made the usual condition that the proceedings must be approved as regular by the bidder's attorneys, and also that the bid was for immediate acceptance.

Prior to the opening of the bids and again as soon as the bids were opened the Staats representative asked for a return of his bid. His eagerness to get it back suggested the possibility that he had received a tip that he had offered a premium more than twice as high as his nearest competitors.

When Attorney Baker recommended that the board refer the bids to the committee of the whole for consideration when he could give them definite advice on the points of the law involved, the clamor again arose for the return of the bid. Other bidders present supported the contention that disregard of the condition of "immediate acceptance" would jeopardize the proceedings. The low bidders also desired immediate return of their \$500 checks deposited as evidence of good faith.

Attorney Baker refused to argue the matter but held that "immediate acceptance" did not preclude a reasonable time for consideration. Upon assurance that final action would be taken and the deposit checks returned at the earliest possible time, the bidders departed.

The premiums offered in addition to par and accrued interest to date of delivery were as follows:

William Staats Company (Conditional) \$2187.00.

Citizens National Bank of Los Angeles \$1010.00.

Hunter, Dulin & Co., Los Angeles, \$1010.00.

R. H. Moulton Co., Los Angeles, \$1000.

Sierra Madre Savings Bank, \$942.00.

First National Bank of Alhambra \$630.00.

Playground Supervision

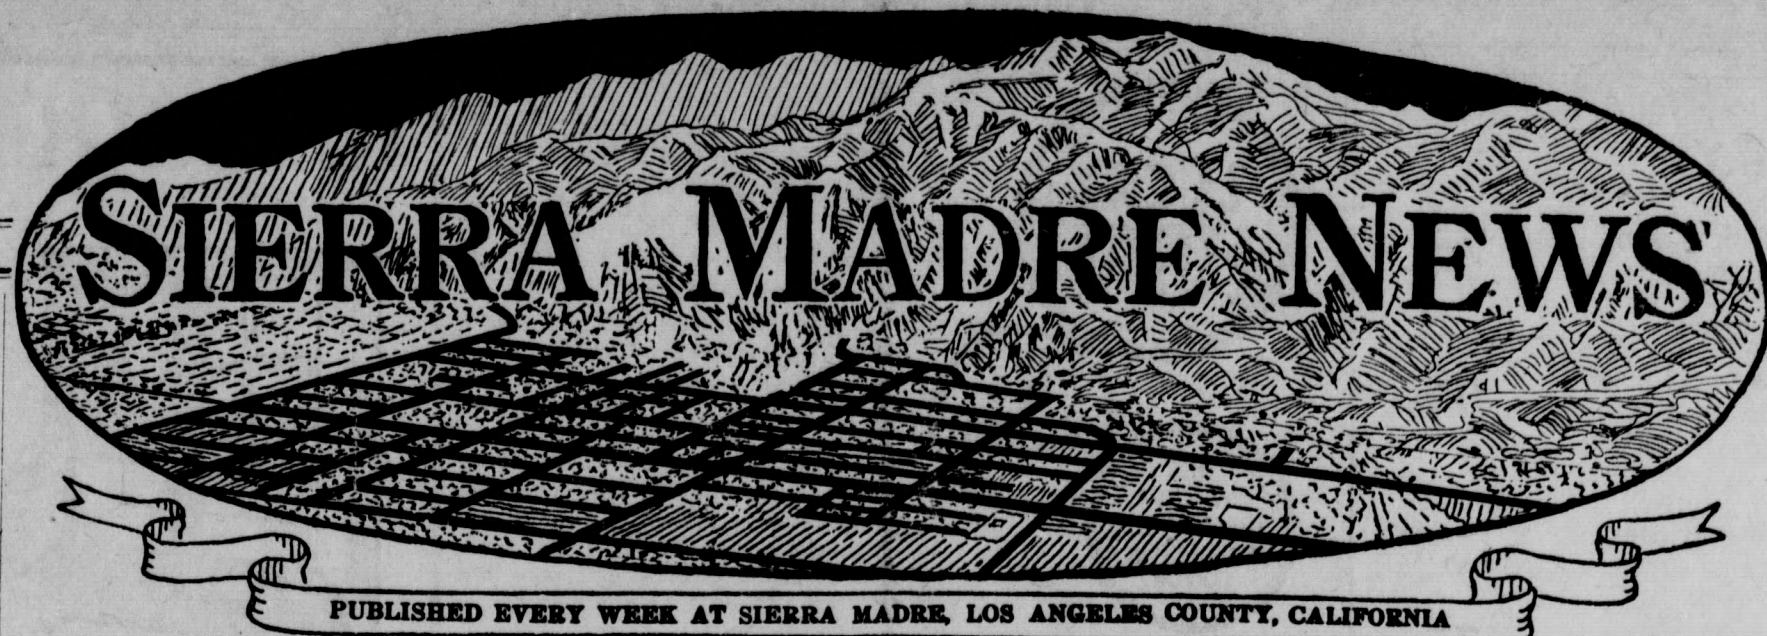

George S. Anderson, school trustee, appeared before the board to ask that the city co-operate with the school board in providing for a playground supervisor during the summer months. He was unable to say just what the cost would be but thought \$150 for the summer would probably be the city's share. The matter was taken under advisement pending further information.

Lights on Central

Residents of east Central Avenue presented a petition asking for lights along 1300 ft. of street now unlighted. Also that suitable protection be given the city pumping plant by illuminating it at night. Installation of three of the new flood lights was authorized for Central Avenue similar to those ordered for South Baldwin and Sierra Madre Avenues.

Estimates on Reservoir

City Engineer Gierlich was ordered to prepare plans and estimates for a 225,000 gallon reservoir to be built at the foot of the Quarter Way pipe line, northeast of Scenic Point. Several owners in that district have sale and subdivision projects under way and wanted assurance of adequate water supply. Messrs. H. T. Fennel and A. N. Carter addressed the board and showed that the present facilities are taxed to the utmost now and give an unsatisfactory and irregular supply. Supt. Tom Henderson said the check dams in the Little Santa Anita were holding back the water so well that for the first time since its installation it was dry at this time of year and offered no promise of gravity water this summer from that source. The proposed reservoir would be so connected as to be served by gravity water when available and at other

PUBLISHED EVERY WEEK AT SIERRA MADRE, LOS ANGELES COUNTY, CALIFORNIA

Sanitarium Test Case Wednesday

Hearing of the sanitarium test case in Department One of the superior court next Wednesday, March 28, is awaited with keen interest by everybody in Sierra Madre, on both sides of the lineup.

The test will be made on the application of Dean Perkins and George M. Anderson for a writ of mandate to compel the city of Sierra Madre to issue a building permit for the erection of a unit of a tubercular sanitarium within the district restricted against such use by Ordinance No. 24. The plaintiffs are represented by the law firm of Moote & Patterson.

Among other claims they allege that the district left open for sanitariums by Ordinance No. 24 is so small as to be in fact a total prohibition. It is claimed that the total available area is about 20 acres. It is also alleged that instead of being a menace to public health in any way, such an institution would be a benefit in many ways.

At last night's meeting of the City trustees City Attorney Baker said that upon study of the case he was encouraged in the belief that Ordinance No. 24 could be successfully defended as valid. He asked that the trustees authorize the city engineer to prepare maps and such data as may be found necessary for proper presentation of the evidence in support of the city's contentions, and that he be instructed to appear prepared to testify if oral testimony is taken by the court.

Owing to the condition of his health, Mr. Baker said he had been unable to carry on court work for some time past and asked that the trustees authorize the employment of associate counsel. This was voted by the trustees, the cost not to exceed \$500 for superior court proceedings. Mr. Baker said his choice of counsel would be the firm of Hunsaker, Britt & Cosgrove, with whom he had been associated in other municipal litigation.

The question of all or a part of the cost of associate counsel being paid by citizens who had expressed a willingness to fight the case was raised by Mayor Mitchell. No answer being given to his call for volunteers, it was pointed out that none of the men who had made such offers at the mass meetings was present. Trustee Topping said it was the city's duty to fight the case to the limit and his motion to provide associate counsel as above specified was adopted by unanimous vote.

AUCTIONEER FAILS TO MAKE A SALE

Attendance at the advertised auction of the Duval Hampton property at 497 W. Grand View, seemed to be mostly curiosity seekers rather than prospective buyers. Only two offers were made, the highest being \$35,000, but was rejected as not bona fide. The 10-acre property is better known as the E. W. Camp place.

times by pumped water. Trustee Topping said the cost would probably be \$3000 and that money is now available in the water fund.

City Clerk Dietz said the general fund does not owe the water department anything. In regard to the much talked of debt of the water department to the general fund, Mr. Dietz said about \$16,000 had been spent out of the general fund in years past for water purposes. Trustee Topping called attention to the fact that the money had not been transferred from the general to the water fund but had been paid out direct. As a matter of bookkeeping, then, the water fund was not indebted to the general fund either. The matter will be threshed out further when the plans are presented.

To Deepen Tunnel

By the expenditure of \$1000 on the west tunnel in the Little Santa Anita it is hoped the flow of gravity water will be materially increased. Supt. Henderson recommended that this be done and it was so ordered.

Prizes Awarded in News Picture Puzzle Contest

So many correct answers were received to the News' Geography puzzle printed in the last two issues, that it was necessary to draw by lot the names of the prize winners. The drawing was done by City Clerk Louis Dietz after Miss Mildred Zeller of the News force had carefully checked the lists and they had been rechecked by the editor.

The drawing resulted as follows:
1st prize—Miss Viola Fennel, 201 West Carter, Swift's Premium ham.

Second prize—Marvin Coats, 240 E. Central, 2-lb. box of Chocolates.

3rd prize—Mrs. M. W. Kemper, 157 Esperanza, 1-lb. box of chocolates.

4th prize—Mary E. Young, 138 W. Montecito, 1-lb. box of chocolates.

No contest arranged by the News ever attracted such attention or brought so many answers. The ease with which most of the puzzles were solved appeared to make the participants overconfident so they did not give enough thought and study to the few that were difficult.

In addition to the prize winners, the following sent in lists on which all the puzzles were solved correctly:
Hilma Rhodes, 439 Mariposa.

LODGE TO HEAR STORY OF TRAVEL

Experiences during his European trip, including visits to foreign Masonic Lodges will be related by Justus Kraft at the monthly social session of Sierra Madre Lodge No. 408, F. & A. M. Mr. Kraft spent several months in Europe last year and made the most of his opportunities for observation. He is a Past Master of Southern California Lodge, Los Angeles and last night talked before that body on the same topic. All Master Masons are invited to attend the meeting with Sierra Madre Lodge next Tuesday night, when there will be other social features of interest.

At the meeting of the lodge last Tuesday night Louis Dietz was initiated into the mysteries of the order.

W. J. Springborn of New York, Wm. Lesch of Cleveland and George Gynn of Pasadena were guests Monday of William P. Caley, 233 Ramona Ave., an old Cleveland friend. Mr. Springborn was formerly connected with the administrations of Mayors Tom L. Johnson and Newton Baker in Cleveland, and was sent to the Pacific coast to investigate some of the municipal developments in which the coast cities lead.

AFTER SUNSET

I have an understanding with the hills
At evening, when the slanted radiance fills
Their hollows, and the great winds let them be
And they are quiet and look down at me.
Oh, then I see the patience in their eyes
Out of the centuries that made them wise.

They lend me hoarded memory, and I learn
Their thoughts of granite and their whims of fern.
And why a dream of forests must endure
Though every tree be slain; and how the pure,
Invisible beauty has a word so brief,
A flower can say it, or a shaken leaf.

But few may ever snare it in a song,
Though for the quest a life is not too long.
When the blue hills grow tender, when they pull
The twilight close with gesture beautiful,
And shadows are their garments, and the air
Deepens, and the wild veery is at prayer.

Their arms are strong around me; and I know
That somehow I shall follow when they go
To the still land beyond the evening star
Where the everlasting hills and valleys are,
And silence may not hurt us any more,
And terror shall be past, and grief and war.

—Grace Hazard Conkling.

Leslie B. Henry Dinner Speaker

Leslie B. Henry will be the principal speaker at the Chamber of Commerce dinner to be held at the Woman's Club House on the evening of Mar. 29th.

When requested by Mr. Allen to come to Sierra Madre and address the crowd at the Chamber of Commerce dinner Mr. Henry said that because of ill health he had delivered only three addresses since last November and those only before the Kiwanis Club because he is vice-president of that organization in Pasadena. But due to his love for and interest in Sierra Madre and her people he would gladly come out and speak at the Chamber of Commerce dinner. To those who have had the pleasure of hearing Mr. Henry he needs no introduction, and for those who have not heard him a treat is in store. Mr. Henry's presence should insure a record attendance at the dinner.

Following Mr. Henry's address an instructive and interesting entertainment provided by the Southern California Edison Company will be given. Reports from other communities where this entertainment has been given are most favorable.

The dinner will be prepared and served by the ladies of the Woman's club and judging by past performances, particularly the Chamber of Commerce Boy Scout dinner held two weeks ago, no one needs to have any fears as to the excellence of the dinner to be served.

Those who are unable to attend the dinner but would like to witness the entertainment are invited to come at a quarter after eight. No admission is charged for this feature and all are welcome.

Dinner tickets are seventy-five cents each and may be secured at Hartman's Drug Store or at the C. of C. office up until five o'clock Tuesday evening when reservations for the dinner close. There will be no membership or other solicitation at this meeting.

CENSUS OF CALIFORNIA HIGHWAYS IS TAKEN

California now has 44,775 miles of improved road not including that added last season, according to the Bureau of Public Roads, Department of Agriculture, which has made a complete census of the state. The road mileage improved in various ways at the beginning of 1922 was as follows:

Graded and drained	30,499
Sand clay	240
Gravel, chert and shale	7,087
Water bound macadam	533
Surface treated macadam	1,355
Bituminous macadam	701
Sheet asphalt	585
Bituminous concrete	493
Cement concrete	2,613
Miscellaneous	669

The total road mileage of the state is 75,889 miles, as compared with only 61,039 miles in 1914. During the period from 1914 the surfaced and paved roads have increased from 10,280 to 14,275 miles.

The total income for highways in 1921 amounted to \$49,691,895, or \$319 for each square mile of area. \$655 for each mile of road, or \$14.50 per capita for the state.

MRS. BALDWIN GIVES 12 HORSES TO THE U. S.

Twelve of the equine aristocrats of the famous Anita M. Baldwin Santa Anita ranch have been given to the United States government. Remount service at Sacramento got the horses first and it is reported they are to be sent to Reno, Okla., for breeding purposes. The horses are Alma B by Hassan, Brown Bee by Toddington, Letty Lee by Jim Gaffney, Marjorie Mignon by Bard of Hope, Mountain Girl by Martinet, Josephine by Transvaal, and Stiletto by Assagai. Two of the horses are stallions. They are Mahruz, an Arabian, and Trial by Jury, a son of Fairplay, sire of Man o' War.

Eugene Crandall and his mother, Mrs. Warren Crandall, have returned for a ten day's motor trip to San Francisco and the Bay Cities.

Flood Lighting System For The City Approaches

Flood lighting for the main approaches to Sierra Madre from the Foothill Boulevard will soon be a reality by reasons of plans prepared by the Chamber of Commerce and approved last night by the city trustees.

Powerful lamps with a new type of reflector will be installed along Baldwin Avenue from the Boulevard to Live Oak Avenue and along Sierra Madre Avenue from the boulevard to Central Avenue. The plan was presented to the city trustees by Major C. S. Floyd, secretary of the Chamber of Commerce, and adopted after discussion by a number of the citizens.

Five of the lamps on Sierra Madre Avenue will be maintained by the city as part of the street lighting system. Twelve of the new lamps will be outside of the city limits. Maintenance expense for these will be provided for by the Chamber of Commerce. Installation cost of the whole number will be borne by the Southern California Edison Co.

The new installation calls for 250-watt nitrogen lamps, and the reflector used is a new invention. The entire Altadena district is lighted with a similar system just installed. The lamps will be 400 feet apart and 32 feet above the ground. The illumination is not confined to a little circle immediately beneath the lamp, but is projected and diffused along the entire highway between the lamps in remarkably uniform degree.

Improvement in the illumination of the highway approaches to Sierra Madre will be one of the best accomplishments of the Chamber of Commerce. The city is so hidden by trees as one drives along the highway that it is difficult for one not familiar with the road to find the place at night. Strangers, and sometimes speakers expected at public gatherings, have been known to miss the proper turn and wander around the country long enough to cause embarrassing delays. It will be a big step forward when the new lights are installed.

COMPLIMENTS FOR LOCAL SCOUTS

Scoutmaster Stovall's Boys Are Attracting Attention of Many People

Troop One, Sierra Madre Boy Scouts was particularly favored this week in the matter of complimentary gifts. Colonel John Borradaile of this city, presented to Scoutmaster Stovall for the use of the troop, a handsome adjutant's pouch, with carrying strap and buckles. The pouch is one that Colonel Borradaile himself has used while in service. It is beautifully decorated in black broadcloth and gold braid, and will be highly valued by the local scouts. Also, it will serve most acceptably in the regular work of the troop scribe, for the carrying of records, orders and papers. It was a thoughtful act on the part of Colonel Borradaile to make this gift to the troop. But this is in keeping with the kindly interest he has manifested toward the local troop since its organization. When the scout made known their need of a flag, the Colonel was the first to offer the one that the boys raise every meeting night in the troop barracks. He has also visited the troop and given the scouts the benefit of his broad experience as a soldier, citizen and army officer. He found the time, while living at Albuquerque, N. M. to serve as Scoutmaster of one of the first troops of Boy Scouts organized in America.

The other compliment for the Sierra Madre scouts came from Jackie Coogan, the famous "boy star" of screenland. Jackie sent the local scoutmaster an autographed photograph of himself, together with hearty personal greetings to all the boys of the troop. The world renowned Jackie hopes to be a "real scout" himself some day, and has all manner of admiration as well as regard for the boys who are. "Give my regards to all your boys," he writes Scoutmaster Stovall. "I have your book, 'The Spell of The Shang Kambu,' and I am going to read it next week before I get real busy on my next picture, 'Long Live The King.'"

A meeting of the membership of the Chamber of Commerce has been called for 7:30 P. M. today to be held at the office of the Chamber of Commerce. All members are urged to be present and on time in order that the meeting may be adjourned in ample time for the concert at the Woman's Club.

SIERRA MADRE WOMAN'S CLUB

By Besse Palmer Rhodes

Art Program

Club members have been advised from time to time during the past month, of the excellency of the art programs, which under the chairmanship of Miss Bush, will be presented, Monday, March 26. Plans are finished and it remains for the club members to receive this program with the appreciation a large attendance always presages. Non-members will be charged 50 cents and Miss Bush has been granted the privilege of using the proceeds to add to the fund being raised by the District Federation for a prize to be awarded at the spring art exhibit at Exposition Park.

Picnic Worth While

About fifty ladies enjoyed the gallery day picnic at Exposition park on Wednesday, which was personally conducted by Miss Ella Shepherd Bush. Both Miss Bush and the gentleman in charge of the French exhibit gave interesting talks on the artists and their productions. A peek into the new stadium was an added treat. A picnic lunch was enjoyed and the day was altogether pleasant and profitable.

Concert

Lest anyone might have overlooked the date of the Selling-Manning concert this gentle reminder is given. Tonight, Friday, March 23 at 8 o'clock, tickets, \$1.00. The Woman's Club is proud indeed to sponsor this splendid entertainment and the evening promises to be a wonderful one.

Convention

A number of local club women are arranging to attend the convention of the General Federation of Women's Clubs, which will be held at San Luis Obispo the 2, 3 and 4th of April. Delegates elected by the club are Mrs. Milton Steinberger, Mrs. W. E. Walker and Mrs. W. R. Lees. Mrs. W. R. Morgan and Mrs. Palmer Rhodes are the alternates. Mrs. W. J. Lawless and Mrs. George F. Ferris will represent the Friday Morning Club. The party will leave Sierra Madre on Sunday morning, April 1st, Mrs. Steinberger using her car and doing the chauffeuring. They return on Thursday, April 5.

BEAUTY PARLOR

OPEN THIS WEEK

Mrs. F. D. Hanshaw, an expert beauty specialist, has opened parlors at 30 North Baldwin Ave., where she has installed the latest equipment for face, scalp and hair treatments, as well as manicuring. The convenience of having such a complete establishment will doubtless be greatly appreciated by Sierra Madre ladies.

A BUDDING ROMANCE

There was hardly even standing room in the crowded tram, but a young woman wedged her way just inside the door.

Each time the car made a sudden forward lurch she fell back, and three times she landed in the arms of a portly man who was standing on the platform. The third time it happened he said quietly:

"Excuse me, but hadn't you better stay here?"

FOOD AND APRON SALE

Home cooked foods and a fine selection of aprons will be offered for sale Saturday morning, Mar. 24 in the corner show room of the Sierra Madre Garage. The Get-Together Club of the Eastern Star ladies are holding the sale to raise money for charitable purposes. The sale will begin at 10:30 a. m.

A delegation from the young people's society of the Nazarene Church of Pasadena is expected to be present at Bethany Church Sunday evening, March 25, at 6:30. All are cordially invited.

Always something new in stationery. Pettitt's News Stand. 25c

STAR GAZING

Sierra Madre's matchless air is peculiarly favorable for people who have acquired the fascinating habit of star gazing. The following from the Hemet News gives a hint of what may be seen just now from Sierra Madre better than from most other places in the habitable portions of the world:

People just now are so greatly interested in the doings of the dead congress, the state legislatures, the Ruhr question, the coming city elections, the coal bin, prohibition enforcement, the approaching presidential election, the income tax returns, street car fares, and so many other vital things that it is hard to get time to take a glance at the evening sky.

But any evening now when the sky is clear, one may see Orion, the mightiest and most beautiful of all the constellations, pursuing his placid course in the sky, swinging along on the celestial equator.

If people live on big Betelgeuse, the largest star in the constellation, it is certain they are not worrying about coal. It is very hot up there. This mighty parallelogram of beauty with its belt of worlds dominates the heavens and is known to every one, even to those who do not know its name. Look at it any evening when conditions favor. Study of it will ease your worry over proposed changes in the game laws.

It is piloted by the twinkling Pleiades, that little fan-shaped group of star diamonds the folks once called the "Seven Sisters," and the number of these stars varies with the means of vision. Ordinary eyes can see but six; a good glass (optical) makes out a much larger family. Next comes red Aldebaran, the eye of the bull, a star of the first magnitude, and then comes Orion, of beauty indescribably.

This procession is ended by Sirius, the Dog Star, brightest star in the sky, who as Orion's dog, seems to speed along at Orion's heels. The ancients named this group after a mighty man of the name, who was slain by Artemis for making love to Eos. They imagined that after his death Orion passed up and became this celestial ornament. Moderns, however, do not believe this story of the hunter Orion. They are fed up on such campaign oratory. They do, however, believe in the constellation Orion, for there it swings calm, immutable and great.

A SPLIT SENTENCE

The judge looked sternly at the prisoner.

"It is very evident that you are a plain, no-account and shiftless person, Kaspar, and for this I am going to send you away for a year at hard labor."

"Please, Judge," interrupted Mrs. Kaspar from the rear end of the courtroom, "will yo' honnahn jes' split dat sentence? Don't send him away from home, but jes' let dat hard labor stand."

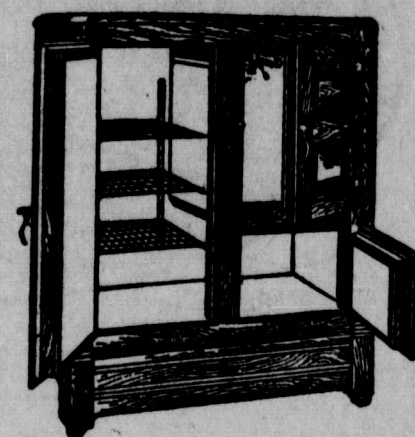

BIG KANSAS PICNIC

All Jayhawkers, whether natives of Kansas or Kansans by adoption, are invited to attend the big picnic reunion called for Saturday, March 31, in Sycamore Grove Park, Los Angeles. The affair will last all day, picnic lunches being in order.

Mr. and Mrs. Harold Black and little daughter of Huntington Beach were week end guests of Mr. and Mrs. C. L. Twycross.

The Easter Perfume!

Fine discrimination in the choice of perfumes is recognized everywhere as the mark of good taste. The true perfume of Fashion must possess the elements which express refinement, selectness, fastidiousness.

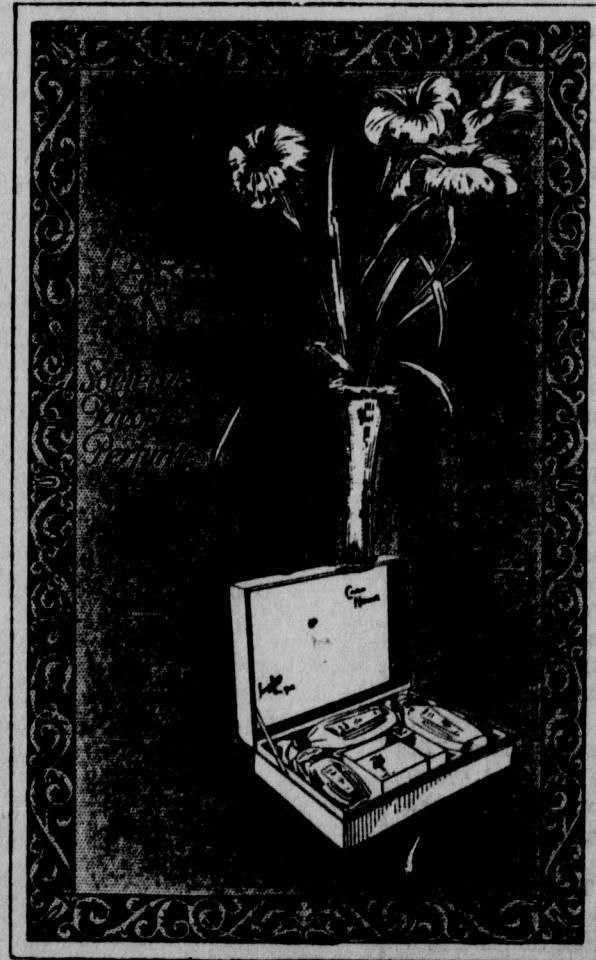

Therein lies the secret of Cara Nome's ever widening appeal.

An exquisite odor of rare delicacy and subtle charm. Laden with the fresh Spring-like scents of early blossom time—all blended, harmonized and endowed with the individuality you naturally expect to find in this best known creation of America's Master Perfumer.

Ask the woman who uses Cara Nome to describe it and she will tell you of the flowers she loves best. In it you, too, will find your favorite fragrances.

Whether you first learn to know Cara Nome through the Complexion Powder, Toilet Water, Talcum, Creams, Extract or Sachet, you will instantly recognize a character of which the senses never tire.

And this same Cara Nome individuality, expressed in the delicate blue and gray packages, will be a continual delight to your eye.

Around Our Town

Woodson Jones has a lot of decidedly novel Easter things at his store, "just around the corner." Some of the Ross & Ross character dolls are especially appropriate to the season. There are also a lot of cards and booklets for sending Easter greetings, as well as Easter releases for the Victrola.

R. B. Wilson left Tuesday on the Santa Fe limited for Chicago. He expects to spend several weeks there attending to business matters. Among other interests he is president of the Wilson-Jones Co., manufacturers of loose leaf bookkeeping equipment. Mr. Wilson bought a round trip ticket, for he says nothing in the world can keep him away from Sierra Madre which has become "home" to him.

Marjorie May Ashmore, little daughter of Mr. and Mrs. D. C. Ashmore, underwent a mastoid operation at Pasadena hospital Wednesday and is reported to be progressing nicely.

Mrs. Irene M. Gay has accepted a position as a music supervisor with the Los Angeles city schools, and gives up her position as grade teacher in Sierra Madre this week. She will continue to reside in Sierra Madre. Her many friends will regret losing her from the Sierra Madre teaching staff, but will congratulate her on her new position which is in the nature of a promotion.

The postponed meeting of the Ladies' Aid Society of the Congregational Church will be held Tuesday, March 27, at the home of Mrs. J. D. Sparks, 414 W. Mariposa Avenue. Mrs. F. H. Hartman will assist as hostess.

Mrs. Jessica Wright has been able to resume her duties as postmaster this week, after being confined to her home for several weeks by pneumonia and the subsequent period of recovery. She was not at all relieved by the recent order from the post office department to all post offices to the effect that allowances for overtime work were cut off by the failure of congress to pass a deficiency appropriation bill.

The series of sermons Dr. Rawlings is preaching on the great fundamentals of the Christian religion continue to interest many people. Next Sunday the subject announced is the doctrine of Repentance, its meaning, its nature and necessity, its effects.

Dr. Lloyd L. Krebs has removed his office and residence to 90 East Central Avenue, retaining his old telephone number, Main 60. Although he continues to maintain his Pasadena office and his practice in that city, the Doctor prefers to make his home and headquarters in Sierra Madre, which he has always loved since he first came over twelve years ago. His convenient facilities will enable him to care for his Sierra Madre practice more effectively than ever before.

ANOTHER WHACK AT LAWYERS

During the course of a trial some years ago, a witness was asked by the prosecuting attorney if he knew what it meant to take an oath.

He replied:

"To take an oath means that you swear to tell the truth, the whole truth, and nothing but the truth."

"What happens if you do not tell the truth?" asked the judge.

"If you do not tell the truth, your honor," replied the witness, "it means that you are dishonored in the sight of God, dishonored in the sight of man—in fact, you are dishonored in the sight of everyone except lawyers."

CALIFORNIANS NOTICE NATION'S PRUNE WEEK

March 19 ushers in the National Prune Week. It has been set aside for the definite purpose of interesting more people in an industry that is linked with the name of California.

Santa Clara valley produces more prunes than any other section of the country and has gone out "to tell the world" in a national campaign of the dietetic value of prunes.

Mrs. Belle DeGraf of San Francisco has been making experiments for the past three years and has given in a very desirable little envelope a number of recipes gummed ready to be pasted in a scrap book or on the files of a recipe box.

It would be a very good idea if all the people in California, at this time, would make it a part of their business to see to it that their friends in the East had their attention called to the California prunes and show them new ways of using them and procure one of these envelopes and send them along with their eastern letters.

GIVE'EM SERVICE

Two fussy traveling salesladies were riding in opposite seats in the train. One thought the car was too hot, the other said it was too cold.

Just then the dusky porter came through.

"Porter," commanded the first lady, "I wish you'd open that window; I'm nearly smothered."

"Don't you do it!" snapped the other.

"If you do, I'll freeze to death."

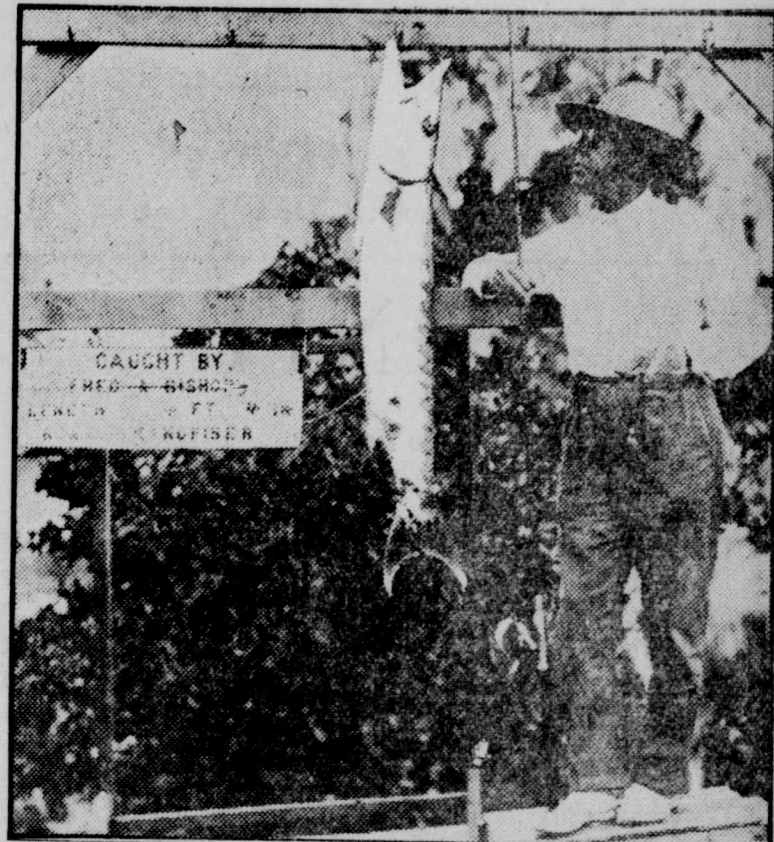

The porter scratched his head.

"What you 'spose I should do in a case lak dat?" he asked a portly looking traveling man, about two seats to the rear, trying to enjoy a little reading.

"Open it a while and freeze one; then shut it and smother the other."—Forbes Magazine.

Mrs. E. H. Gubbins who has undergone a major operation at the St. Francis Hospital, San Francisco, is doing nicely.

Three-Hour Fight to Land Him

It took three hours' stiff battling to land this one. It's a 30-pound barracuda, caught by Fred A. Bishop of New York, at Las Olas Beach, Fla. The barracuda is of the type of sea monster that recently attacked and killed a girl swimmer in Tampa Bay.

BUSINESS TURNOVER HEAVY FOR AUDITOR

Business turnover of the county recorder's office has increased to the work of recording more than 1800 documents relative to real estate and building a day, it was announced by C. L. Logan, head of the department. This compares with 500 to 600 documents a day, which was considered voluminous a few years ago.

During the first 14 working days of March a total of 21,780 documents were recorded, which compares with 14,260 for the same period last year, and 11,164 for the same period in 1921.

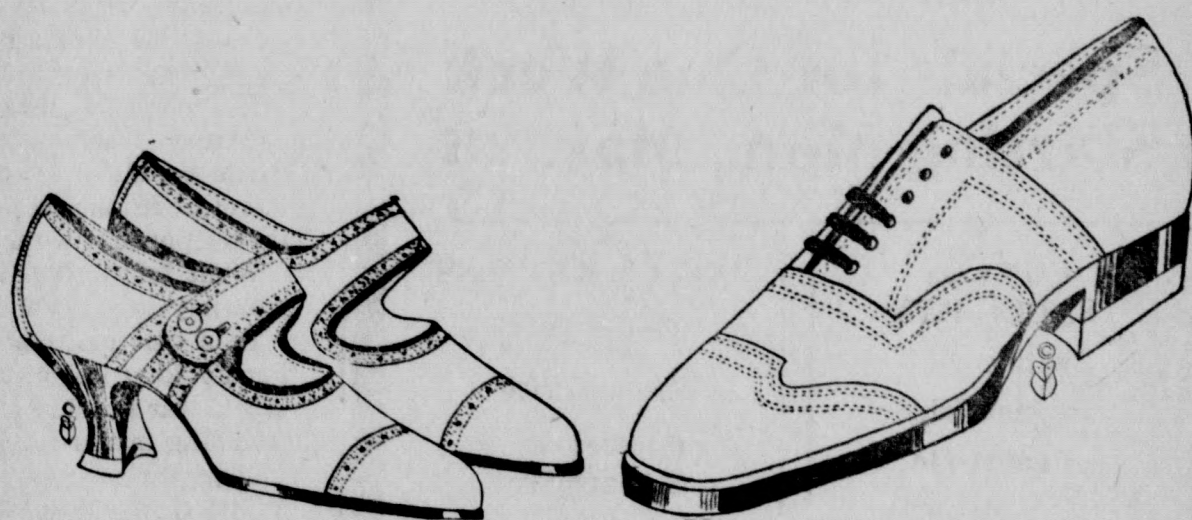

The large rush of work has made it

necessary for Mr. Logan to keep the copying department open from 7 o'clock in the morning to 10 o'clock at night every day.

J. H. Parsons closed his meat market last week and will take a vacation for about two months. About the middle of May, in company with A. U. Woodward, Mr. Parsons will open an up-to-date market in a new building now under construction on the corner of Fremont and Main Streets, West Alhambra. Mr. Parsons wishes to thank his many Sierra Madre friends for their past patronage.

LINIT

The Remarkable New Starch Discovery

To get that fashionable, natural finish you admire in goods fresh from the store. Makers of fine fabrics use a starch that penetrates the fabric. Such a starch is LINIT, the modern scientific starch discovery. Not only does it penetrate the fabric but it preserves the life of the fabric and resists wear.

Linit makes cotton look and feel like linen.

Linit can be used in every kind of fabric, whether cotton, linen, lawn, organdie,ingham, lace or curtains.

BY THE WAY

FRIENDLIER AND FRIENDLIER

Wounded feelings and offended dignity have no place in connection with last week's mass meeting. Anybody who harbors a grudge as a result of anything said or done there missed the best part of the whole affair. True, there were some ruffled dispositions at the time. A good many things were said in the heat of discussion that would not have been said after cool deliberation by the speakers. But in the turmoil they got a good many things off their chests which had perhaps rankled there for some time and which they can now afford to forget. Anyone feeling inclined to take the personal side too seriously should remember that four-fifths of the crowd which packed the hall went there solely to be amused. They got their money's worth. They will have a great deal more fun at the expense of anybody who publicly displays imaginary wounds from the fray. If it was not absolutely and completely true, it should have been as one of the speakers said: "The louder we talk the more friendly we are." The meeting met to discuss and decide a definite problem, which was done. The personalities and side issues may now be forgotten while everybody turns in a friendly way to something else of constructive character.

THE GOSPEL OF DESPAIR

The Chicago Tribune, which wanted to seize Mexico when a good many people were beginning to want to go over and help stop Germany, which wanted peace-time conscription, which thinks President Wilson made a great blunder in not compelling Great Britain to give us the West Indies as our price for entering the World war, and which proposes nullification of the prohibition amendment to the Constitution, has written a piece about war in which appears this cheerful paragraph:

We don't like it, but it is folly to deny a force. We suppose the next hundred years contain wars for us. As nations always have fought their neighbors, we probably shall fight ours. It seems unbelievable that we shall fight Great Britain. We probably shall, and both British and Americans will think that it is inescapable, and then that it never shall happen again. War with Japan is not unbelievable. It probably will come. Then we'll think it never will happen again, and it will happen again.

This reflects a type of mind, a type of human belief, that has done and is doing a lot of mischief in this world; that has caused and is causing and will cause a lot of needless human woe and suffering.

We always have had war. Therefore, we always shall have war.

Nations have always fought their neighbors. Therefore this nation will always fight its neighbors.

Smith has always been a drinker, therefore Smith must always remain a drunkard.

The world has always gone afoot, therefore it can never ride in carriages, automobiles or airplanes.

The world has always sent its messages by word of mouth, therefore it can never have the convenience of the telegraph, the telephone or wireless.

What folly! It is as sensible as to say there never has been any progress and so there never will be any progress.

It is true that mankind is slow to learn its lessons. If human kind had ordinary horse sense, the lesson of the World war would be enough to make it lay everything aside, including insular concepts of patriotism, for the business of killing war. It may be that it still needs another lesson. It may be that the inevitable world organization against war will not come until humanity has suffered the calamity of a war in which the new devilishness of gas bombs has had a chance to destroy whole populations. If that fatal delay occurs, it will be because of such malignant concepts as that which the Chicago Tribune holds.

It can happen that America will fight Great Britain and Japan. It won't happen unless such gospel of despair as that preached by the Junkers of all nations poisons the thought of the American people. Either war would be a crime.

Because an evil always has existed is not a reason for believing that it must exist; it is a reason for fighting it, for clinging doggedly to the purpose of destroying it. Mankind can rid itself of war. If governments don't do it, peoples will. If governments pursue the old blind selfishness and greeds that make war, the time will come when the peoples will say: "You made the war; now you fight it. We shall not."—Hemet News.

John Burroughs in his last book published since his death, tells of a story that Emerson always chuckled over. An old woman had a farm in Indiana near the Michigan line. A resurvey set her farm in Michigan. She protested vigorously, saying that she could not stand the winters in Michigan.

POMONA WILL DEDICATE FOUR NEW BUILDINGS

Ceremonies Will Mark Big Forward Stride in History of the Foothill College

Perhaps the greatest single epoch in the history of Pomona College, certainly the greatest building epoch, will be celebrated on Saturday, Mar. 24, when tablets will be unveiled in connection with the dedication of four imposing new buildings.

The Mason Hall of Chemistry, costing something over \$200,000, and affording accommodations for 600 students in chemistry and geology, is the gift of Mr. William S. Mason, a trustee and constant benefactor of the college.

Crookshank Hall of Zoology will meet the need of one of the two basal departments of Biology. The generous donor of this edifice, costing over \$100,000, is Mr. D. G. Crookshank.

The Memorial Training Quarters were erected in honor of Pomona's alumni and former students who gave their lives in the world war. It represents the combined gifts of alumni, former students and a few friends, and is the first unit of the great gymnasium which is to be built later.

The Sumner Hall of Administration represents "the oldest bit of board" on the campus. Through the efforts of loyal friends and graduates, "Old Sumner" is being reconstructed at a large cost to house the administration offices. It has been removed to a position east of Bridges Hall, leaving the heart of the campus free for the landscaping and development of the Marston Quadrangle, whose perpetual upkeep is provided for by the generosity of Mr. George W. Marston, a member of the Board of Trustees since the founding of the college.

Celebrating this notable epoch in the history of Pomona College, suitable exercises will be held. The colleges and universities of California will be represented by their faculties, as will be the high schools and junior college of this immediate section.

The academic procession will move from the Carnegie Library at 10:30 a.m. At 10:45 public exercises will be held in the Mabel Shaw Bridges hall of Music, addressed by Dr. Henry S. Pritchett, President of the Carnegie Foundation. This will be followed by the corporation dinner at 1 p.m., admission to which will be by ticket. Following the dinner an address will

be given by John Adams, LL.D., F.C.P. Emeritus Professor of Education in the University of London.

Opportunity will be given all visitors to inspect the new buildings, the Marston Quadrangle, and to acquaint themselves with the college and its environments.

Girt about with grandeur and majesty by the Eternal Builder, these buildings of man match their surroundings and emphasize that "To build greatly is the joy of great men."

SHORT RAINFALL MAKES ORCHARDISTS GET BUSY

Agriculturists of Southern California are speedily revising their plans to conform to the low spring rainfall during this season and irrigation is beginning earlier than ordinary in order to maintain proper soil moisture supplies. Spring rains are usually sufficient to carry orchards and provide suitable conditions for spring plantings far beyond the present date.

Six weeks of dry, warm and windy weather has depleted the water supplied by earlier rains and difficulties confront farmers of all classes due to dry, hard soils. Many orchardists have cover crops ready to turn under and now find irrigation necessary, not alone to permit plowing but to provide moisture for the proper rotting of the organic material. A few of this class find themselves in peculiar difficulties by having a cover crop on ground not previously furrowed out. Here and there young citrus groves are already showing actual need of water for the proper growth, many deciduous orchards will not start properly without irrigation, and altogether the situation is bad.

The Agricultural Extension service, by reason of recent field observations reports that the loss of soil moisture for certain soils and crops has progressed far enough so that the subsoils are getting dry as well, and that haste will be necessary if the proper growing conditions are maintained throughout the spring and summer. Such situation arises in every dry season but those who watch their soils begin irrigating early enough to take care of the condition. Others realize too late that ordinary methods are insufficient and fail to get caught up in watering throughout the year and suffer loss in current crops and tree growth.

Sunshine & Showers

by
DE WITT T. JONES

Agnes Ayres says she will never kiss a man with a mustache, and yet some people say nothing good can come out of Hollywood.

Those of us who are afraid someone is going to make a profit from our dealings with them should take a lesson from the hen. She seems more pleased over the fact that she has laid an egg than the man who is going to reap the reward.

After dinner speeches made via the radio have at least one advantage over the conventional after dinner speech. One may leave or stop the thing without hurting the talker's feelings.

There probably are a number of factions in Ireland wishing that another St. Patrick would appear and take charge of affairs; and just as many ideas of what such a man would do if he should appear.

Weeds grow tallest under conditions that are best suited to the production of fruit or flowers. Likewise, in Southern California, where the environment is ideal for the production of literature, the scandal sheet and the yellow journals prosper.

We are at last disillusioned regarding the real value of this column. A syndicate recently offered to furnish us with copy at the rate of \$2.00 per month.

Those of us who have no political machine to keep lubricated may get a great deal of satisfaction out of the

propaganda Will C. Wood is spreading regarding the educational budget. According to Mr. Wood the State of California will soon cease to produce men of education. Then will those of us who have already been exposed to knowledge be placed upon a pedestal where we belong. If we are to believe reports the great State of California will soon reach a place where one who has read O. Henry and Kipling will be considered cultured, one who can name the seven kings of Rome will be considered a scholar competent to take the chair of history in any of our colleges (provided there are any colleges) and a man who can bound the State of California will be rated as a statesman and politician. Then the few of us who know the meaning of the word metempsychosis will be given the intellectual rating we so richly deserve.

"The stag at eve had drunk his fill,"
So sang an early poet.
That may be true, but yet and still,
How did the poet know it?
—Whit Greenleaf.

"Life" suggests that after the British scientists have finished removing the mummy clothes from King Tutankhamen, they might do as much for the United States Senate. Not such a bad idea, providing someone can think of a sure way to distinguish a senator without his frock coat from the disrobed Egyptian ruler.

Gertrude Pruyer, who pleaded guilty this week to a charge of stealing \$80.00 from the collection plate of a Pasadena church, will soon have an opportunity to learn which of the following passages of Scripture are more firmly fixed in the minds of her accusers: "The wages of sin is death," or, "I was in prison and ye came to Me."

50 GOOD CIGARETTES 10¢

Finally Quit of 'Ducal Wooer

THIS is Lady Diana Cooper, the English beauty with whom the Spanish Duke of Luzeiraga was so deeply smitten that the government asked him to quit the British Isles. Lady Diana complained that he persisted in sending her unwelcome love notes. She is daughter of the Duke of Rutland.

THE SUPREME MOVIE STUNT

In a stupendous task undertaken by a Los Angeles motion picture director, there is ground for fear that the good accomplished may be discounted by the injury and loss of life sustained. The public has become accustomed to the marvelous accomplishments of the movies. War has been portrayed in all its horror, with actors performing deeds of courage and high devotion. The emotions of love and custard pie have been filmed with life-like sincerity. Even the way Babe Ruth bats and the heat of the nether regions have been registered for the camera.

But the latest attempt of a motion picture man is one which will make the world gasp. It seems well nigh impossible. The Hollywood miracle man is seeking none other than the homeliest girl in the country. He demands that she furnish a warrant of age in excess of 30 years, and is determined that she make the claim of high honors herself rather than be pushed into the race by her admiring friends.

The lure of the films cannot be denied. But the danger of serious injury or loss of life in the rush of applicants for this place at the profession's zenith is such that it would seem as if federal interference would be warranted.—San Bernardino Sun.

The trials of an editor are many. Now Whit Greenleaf has threatened to leave us cold unless we put the words, "Poet and Philosopher," after his name when printing news items about him. For the reason that every up-to-date paper seems to have a staff poet, we are forced to make this concession though, as a matter of fact, we don't think he is any more of a poet than some of the other alleged poets and philosophers.

NEWSPAPERS THE BEST

ADVERTISING MEDIUM

That the newspaper is by far the best advertising medium and that advertising is often the one means of pulling retail business out of the rut of the commonplace, was the statement made by C. N. Boley at a meeting of the Monrovia Rotary club recently.

"Newspapers are the primary and established mediums of advertising to the extent of perhaps 90 per cent for the local field, and divide equally with the magazines the national advertising," Boley declared.

"When business is dull cut down other divisions of your overhead except advertising. If you make any change here, increase your space." He advocated merchants taking a small percentage of their gross business and devoting it to advertising, running their story regularly, and changing their advertisement with every issue. Advertising should be considered by every merchant, however small, as a fixed investment, as much as light or rent, the speaker declared.

NOTICE OF CHANGE OF GRADE
PUBLIC NOTICE IS HEREBY GIVEN, that on Wednesday the 21st day of February 1923 the Board of Trustees of the City of Sierra Madre, did at said meeting on said day pass a Resolution of Intention No. 152, to change and establish the grade on a portion of Laurel Avenue in said City of Sierra Madre, California, as follows, to-wit:

That it is the intention of the Board of Trustees of the City of Sierra Madre to change and establish the grade of Laurel Avenue from the Easterly line of Baldwin Avenue to the Easterly line of Mountain Trail Avenue, in accordance with the following elevations.

Along the Northerly line of Laurel Avenue the grade shall be as follows:
At the Northeast corner of the intersection of Baldwin Avenue and Laurel Avenue the grade shall be 895.15.

At a point on said Northerly line distant thereon 210 feet Easterly from the said Northeast corner of Laurel Avenue and Baldwin Avenue, the grade shall be 886.8.

At a point on said Northerly line distant thereon 260 feet Easterly from said Northeast corner the grade shall be 885.

At a point on said Northerly line distant thereon 310 feet Easterly from said Northeast corner the grade shall be 883.7.

At a point on said Northerly line distant thereon 510 feet Easterly from said Northeast corner the grade shall be 880.20.

At a point on said Northerly line distant thereon 560 feet Easterly from said Northeast corner the grade shall be 879.00.

At a point on said Northerly line distant thereon 610 feet Easterly from said Northeast corner the grade shall be 877.20.

At a point on said Northerly line distant thereon 915 feet Easterly from said Northeast corner the grade shall be 864.40.

At a point on said Northerly line distant thereon 1160 feet Easterly from said Northeast corner the grade shall be 853.20.

At the Northwest corner of the intersection of Laurel Avenue and Mountain Trail Avenue the grade shall be 852.55.

Along the Southerly line of Laurel Avenue the grade shall be as follows:
At the Southeast corner of the intersection of Laurel Avenue and Baldwin Avenue the grade shall be 892.85.

At a point on said Southerly line of Laurel Avenue distant thereon 213.4 feet Easterly from the Southeast corner of Laurel Avenue and Baldwin Avenue the grade shall be 885.0.

At a point on said Southerly line distant thereon 263.4 feet Easterly from said Southeast corner the grade shall be 883.25.

At a point on said Southerly line distant thereon 313.4 feet Easterly from said Southeast corner the grade shall be 882.0.

At a point on said Southerly line distant thereon 513.4 feet Easterly from said Southeast corner the grade shall be 878.50.

At a point on said Southerly line distant thereon 563.4 feet Easterly from said Southeast corner the grade shall be 877.25.

At a point on said Southerly line distant thereon 613.4 feet Easterly from said Southeast corner the grade shall be 875.50.

At the Southwest corner of the intersection of Laurel Avenue with Merrill Avenue the grade shall be 862.75.

At the Southeast corner of the intersection of Laurel Avenue with Merrill Avenue the grade shall be 861.30.

At the Southwest corner of the intersection of Laurel Avenue with an alley between Merrill Avenue and Mountain Trail Avenue the grade shall be 855.7.

At the Southeast corner of the intersection of Laurel Avenue with said alley the grade shall be 855.0.

At the Southwest corner of the intersection of Laurel Avenue and Mountain Trail Avenue the grade shall be 849.25.

That between all of the points above mentioned in this Resolution the grades shall conform to straight lines joining those points on the same side of the street.

That the grades given are in feet above the City Datum Plane and are on the property lines of the street.

All Avenues and alleys referred to in this Resolution are public thoroughfares of said City of Sierra Madre.

The proceeding for the aforementioned change of grade shall be taken under and in accordance with the "Change of Grade Act of 1909."

REFERENCE IS HEREBY MADE TO SAID RESOLUTION OF INTENTION NO. 152 ON FILE IN THE OFFICE OF THE CITY CLERK OF THE CITY OF SIERRA MADRE, FOR FURTHER PARTICULARS.

A. M. UDELL,
Superintendent of Streets of the City of Sierra Madre, California.

Hoyt's California Adult Food

Nature's Tonic

A CONSTITUTIONAL BUILDER

Hoyt's California adult food increases assimilation, so that food when eaten is easily converted into blood and flesh. This food overcomes the condition of which so many persons complain. "I eat plenty, but food does not do me any good—I do not put on flesh."

Take Hoyt's California adult food, according to directions and watch your appetite, weight and general health improve.

For persons suffering from the following ailments, this food is

NORMA TALMADGE in "THE VOICE FROM THE MINARET"
Personally directed by Frank Lloyd

At last—the Perfect Picture! First, Norma Talmadge in grand portrayal—Lady Adrienne, startled from unwelcome widowhood to desert given love. Then Eugene O'Brien again her leading man! Remember their triumphs together three years ago? Surely these are "the screen's perfect lovers!" The famous Robert Hichens play of tempestuous love in desert places—mirrored by the Artiste Incomparable.

NOTICE OF TRUSTEE'S SALE

Whereas, Charles Prochazka and Louise Prochazka, his wife, by a deed of trust dated January 9, 1922, recorded in Book 638, Page 386, Official Records of Los Angeles County, California, did grant and convey the premises therein and hereinafter described to C. F. Secombe, as trustee, to secure, among other things, the payment of a certain promissory note made to the order of A. H. Secombe; and

Whereas, default has been made in the payment of said promissory note, and the said A. H. Secombe has demanded that said trustee sell the premises granted by said deed of trust.

Now, therefore, notice is hereby given that the undersigned, by virtue of the authority vested in him as trustee, and in accordance with the terms and under the authority of said deed of trust, will sell at public auction, to the highest bidder for cash in gold coin of the United States, on Saturday, the 31st day of March, 1923, at the hour of 11 o'clock a. m. of said date, at the Broadway entrance of the County Court House, located on North Broadway, in the City of Los Angeles, State of California, the interest conveyed to him by the aforesaid deed of trust in and to the real property therein described, situated in the City of Pasadena, County of Los Angeles, State of California, described as follows:

All of that portion of Block "A" of the re-plat of Tebbetts Subdivision of a portion of Block "K" of the subdivided lands of J. H. Painter and B. F. Ball, as per map recorded in Book 42, Page 9 of Miscellaneous Records of said County, described as follows: Beginning at a point on the East side of Fair Oaks Avenue, 282 feet South of the South line of Penn Street; thence South 93 feet along the East line of Fair Oaks Avenue; thence at right angles East 212 feet; thence at right angles North 93 feet; thence at right angles West 212 feet to the point of beginning.

Subject to an easement for street purposes over any portion included in the lines of Fair Oaks Avenue as widened.

Sale will be made subject to incumbrances of record.

C. F. SECCOMBE,
Trustee.

If you have anything to sell, rent or trade, put a wantad in the Sierra Madre News.

A MAN

Said to me: "Bill, are you selling any of your oil stock to widows, orphans and to people who buy automobiles on time?"

MY ANSWER,

to this question was that I did not require a personal history of purchasers of stock in the proposition I am selling stock in.

BUT,

if there are shares of that kind that I have sold, and if they will come to me with their receipts, one hundred cents on the dollar will be paid back.

I am not asking for widows' mites nor orphans' funds. I am giving every red blooded citizen in this town a chance to get in on what, in my humble opinion, is the best oil proposition in the Santa Fe oil fields. And if you will look over and investigate it thoroughly I believe you will say, "Farman, I think you are right." And why not? Here are the facts concerning this proposition:

Low capitalization; A 1 location. One well draining approximately 4½ acres of ground. A turn key job. A first class derrick and the best machinery equipment money can obtain. 80% of all oil until every stockholder gets his money back, then 60% from then on. Compare this with any other syndicate in the field, and you will buy Pacific States Oil Company shares.

W. E. FARMAN
LICENSED AGENT

32 East Highland Ave.

Telephone Black 84

ANNUAL SCHOOL ELECTION SOON

Choice of one school trustee will take place at the annual election to be held next Friday, Mar. 30, at the school house. The trustee whose term expires is George S. Anderson. His name is the only one appearing on the official ballot, his nominating petition having been filed with the clerk of the board. Mr. Anderson has the approval of the other members of the Board, Dean Shaw and Mrs. James N. Hawks.

Various rumors are current about the possibility of other candidates appearing at the last minute. It would be necessary for their names to be written in. At least two and perhaps three persons have been mentioned as proable candidates, in which case a merry contest may develop.

Voting at school elections used to be very light. Of late years it has improved somewhat. The voters had the painful lesson of the election of some undesirable trustees when only a few people took the trouble to go to the polls. People who do not vote have no right to kick about the way public affairs are handled. A large vote is an expression of wholesome public interest and is more important than the election of any particular candidate.

Easter Candies, always fresh. Pettitt's News Stnd.

THE EDITOR MADE A MISTAKE

The editors of the small town papers are merely human, and they are therefore quite apt on sundry occasions to make mistakes. Such a man is the editor of a Minnesota paper who said:

We made a mistake in last week's issue of the Sentinel. A good subscriber told us about it. The same day there was a letter in our post-office box that didn't belong to us.

"We called for 98 over the phone and got 198. We asked for a spool of No. 50 thread and when we got home we found that it was No. 60. The train was reported 30 minutes late. We arrived at the depot twenty minutes after train time and the train had gone.

"We got our milk bill and there was a mistake of ten cents in our favor. We felt sick and the doctor said we were eating too much meat. We hadn't tasted meat for months. The garage man said that the jitney was missing because it needed a new timer. We cleaned the spark plug and it has run fine ever since. Yes, we made a mistake in last week's issue of the paper."

PLUCK NOT THE YUCCA BLOSSOM, BEHOLD IT IS AGAINST THE LAW

There is a lot of trouble in store for motorists who pick yucca blossoms this year, according to a warning just issued by the Automobile Club of Southern California.

According to Los Angeles county forestry department officials, the Yuccas are just coming into bloom on the hills of the southern part of the state and will be more wonderful this year than ever before and just because they are going to be more wonderful the authorities are going to be more strict in arresting motorists who pick them.

Every auto party which is found by forestry officials in Los Angeles county carrying a Yucca bloom in the car will be arrested without question at once, according to S. J. Flintham of the forestry department. Other counties in the southern part of the State are

at this time considering ordinances making the picking of Yucca blossoms a misdemeanor.

In Los Angeles county there is a law prohibiting the cutting of Yucca stalks in the hills. It is pointed out that the huge Yucca blooms when picked wilt and fade within a very short space of time and are useless for decorative purposes. This fact, however, has not deterred motorists from picking the flowers in the past, but now the long arm of the law is going to reach out to do a little deterring on its own account, says the Auto club.

The Yucca is a very vital factor in making the State attractive to eastern visitors and club officials declare that every resident of California will cooperate with the authorities in preserving the Yucca in its native state and protecting one of the beauties of the West.

POWER SYSTEM SPREADING OUT

Erection of a system of steel towers for electric transmission lines is beginning to tell its own story before any authoritative information is given out by the Southern California Edison Co. The towers, in two lines, are in a general north and south line from the mountains at Kinneloa ranch at least as far as the Southern Pacific line at East San Gabriel. Right of way has been purchased outright, as well as additional tracts of some size adjacent thereto.

Although the company has been keeping its own counsel, many surmises may be made as to the probable program of development. It is known of course, that the company will have a great additional supply of hydro-electric energy from its new Big Creek plants for which it must find a market soon. Being shut out of most of the Los Angeles field by the purchase of its city system by the Los Angeles municipal light and power bureau, the Edison Co., must necessarily market much of its power on the outside. The logical course, it has been pointed out, would be the development of outside industrial districts. Manufacturing and industrial plants using a large amount of power, could be well accommodated in many outlying districts.

In addition, the company's business involves an immense amount of shop work of various kinds. It is understood a large part of this work carried on in Los Angeles and elsewhere will be concentrated on land recently bought by the company at East San Gabriel.

The new towers are of the type used for carrying transmission lines for the 250,000-volt current, a new record in power transmission. Just how the connecting lines from Big Creek are to be brought to the point above Kinneloa ranch where the lines leave the mountains has not yet become apparent. The present transmission lines of the company from the high Sierras cross the mountains near San Fernando, and are brought thence to the substation above Eagle Rock. The new lines may follow the same course, and then pass along the foot of the range to the east side of Eaton's canyon. Or they may be brought directly across the mountains from the Antelope Valley, a direct but difficult course. Further developments will be awaited with interest.

ANOTHER ALL-STAR PROGRAM BILLED

On Wednesday, April 11th, 1923, another theatrical and musical entertainment will be given in St. Rita's Auditorium through the courtesy of the Orpheum Officials by an all-star cast.

In fixing the above date care has been taken not to conflict with entertainments by other organizations in Sierra Madre, so that an opportunity will be given to the many people who regretted not to have been present at the first performance on January 16th. The public will eagerly look forward to this high class entertainment, as many of those present in January repeatedly asked when another Orpheum Show would come to town. Further details will be announced later.

Mulligan stew and rich green decorations made a hit on the tables at the monthly dinner of the Men's Community club in the Congregational Church last week. There was an unusually large attendance of men and a large enrollment of members for the year 1923. President Dennis Stovall presided and short talks were given by Dr. W. A. Tate who told briefly of his Hawaiian experiences, and Dr. E. Guy Talbot, who described his experiences in the Near East where he observed the need for American relief work. Owing to the desire of many people to attend the zoning ordinance hearing, the club adjourned at an early hour.

If you want to get into "the 400" you have a real chance now. The district employees of the Southern California Edison Company have it all arranged. They have started out on a campaign of their own to add 400 new stockholders to the company's list within the next few weeks. Stock in the company is already very widely distributed, and the number is constantly increasing. This plan for a contest has been developed among the employees themselves, according to District Agent Fred Schwartz, who is greatly pleased over it. The force have divided themselves into six teams, each striving to reach its own quota and as much more as possible.

MOUNTAIN ROADS

WONDERFUL ASSET

Editor Fred F. Runyon of the Pasadena Post is an old time mountain hiker. So it is not to be wondered at that he gets enthusiastic once in a while over the value of our mountains, likewise, pessimistic over their neglect.

If the state highway commission really wants to build a worth while mountain road it might follow Mr. Runyon's suggestion in place of that million dollar road through the Hearst ranch up north which has been described as "beginning nowhere and ending nowhere." Mr. Runyon writes as follows in the Post:

Ever since good roads came into existence because of the advent of the automobile there has been talk of building an automobile road into the mountains back of Pasadena, a road that would open up the wonders of this great section, just as the 'Rim of the World' road in the San Bernardino opened up the great mountain section to the enjoyment and profit of that city.

Persons competent to judge assert that such a road in the Sierra Madre Mountains would open up scenery of far superior beauty than even the "Rim of the World" trip reveals.

However that may be, it is very evident that a road out of Pasadena, leading through the upper reaches of the beautiful Arroyo Seco to the summits of the mountains back of Switzer's camp and circling the heights which overlook valley and desert, would be accessible to hundreds of thousands who otherwise would not attempt such an automobile journey.

Such a road would be a mighty asset to Pasadena, but still greater asset to Los Angeles.

There isn't another large city in this country that can boast of such proximity to mountains, except those cities that rest in the heart of the mountains, like Denver and Salt Lake City. There isn't a city on the Atlantic Coast that lies at the foot of a mountain.

Here we have a billion dollar asset and we overlook it. Only the hiker gets any benefit from the great natural playground that is at our very door. The same attraction that the beaches have for the tourist or the casual visitor could be supplemented by the attraction which the mountains would hold.

It has always been a source of wonder to me why this tremendous asset, so different from anything that any place in the east can hold for the tourist, is not developed.

An auto road into the mountains is all that is needed to add another gigantic attraction here for the visitor.

You have heard of the tourist from the middle-west who after arriving here went to the ocean and actually waded in the water to touch it. The

ber of attractions we have to offer.

We haven't a right to overlook this great asset. It isn't good policy to let any other section get ahead of us in this respect and this applies to Los Angeles just as much, if not more, than it does to Pasadena.

Mr. and Mrs. J. F. Ropp, Mrs. F. Smithson and son of Pasadena and Mr. and Mrs. Peter Ropp of Pekin, Ill., were guests of Mr. and Mrs. Walter Ropp of West Highland Avenue on Wednesday.

There will be an important meeting of the Order of St. Catherine at the home of Miss Thomasella Graham next Tuesday evening, March the 27.

A Want Ad Speaks for You

Every time you place a Want Ad in the columns of the News, it is the same as if you were personally telling each reader what you have to offer or what you want.

That little Want Ad is in reality nothing but your own voice and it obtains for you just as good results as if you were personally interviewing every person who reads it.

So if you have a house and lot or some furniture to sell, or perchance, you want to buy some, then put a small Want Ad in the News and watch it talk for you. No matter what your need, once you have tried this procedure you will always be a constant advertiser in the

News Want Column
